

COMMON CENTS PUBLISHING

# Publish FOR Pennies

Whether satisfying a personal desire to get published, using book publishing as a class project or publishing a book created by students for a school fundraiser, educators can now get published for as little as \$995 (or less\*) through Five Star Express Press Copper Programs!

## Copper Penny Plan - \$995 (with teacher discount \$895)

- Includes 25 free books, after which each book costs the author \$4.52 for books up to 108 pages and \$5.90 for books between 109-200 pages.
- Five Star Express Press provides instructions for obtaining copyright, barcode, ISBN and a list of production steps the author needs to take to design the book.
- Copper Plus and Copper Elite Plans are also available, which include additional free books, press material, distribution channels and other amenities for an additional charge.

### Do the math!

If your book costs \$16, 25 free books is a \$400 value. From \$895, that's \$495, which means you only have to sell a minimal amount of books to break even!

Better yet ... get a grant or sponsorship to cover the publication price and it's all profit from there!

**\*Educators who mention this flyer receive a \$100 discount.**
